One Page Narrative:

This data was extracted from the Department's Public Safety Server. The data covers adults booked into the Berkeley Police Department's Jail facility by any law enforcement agency (not exclusively the Berkeley Police Department) over the past 30 days. The data are updated each day at 9:00 am.

At this time, the *arrest location, arrest city, arrest latitude* and *arrest longitude* are not available. We are working with our vendor so this data can be provided at a later date.

Tabular Data Descriptions

Column Name	API Field Name	Comment
Booking Number	booking_number	The Booking Number is a sequential index number that identifies one booking from another. The first four numbers of the Booking Number designate the year, followed by a hyphen and then a sequential number generated by the police Records Management System (RMS). All Booking Numbers have eight digits; if the Booking Number is less than eight digits, leading zeros are automatically inserted.
